

## Pressure Drop Test Kits with NIST connections

### SPECIFICATION SHEET

Standard  
Pressure Drop  
Test Kit (NIST)

#### Pressure Drop Test Kit features

- For measuring pressure losses at NIST Point
- Lockable valve to prevent tampering
- Ideal to test at AVSU and Manifold points
- Available with either one or two additional 20054D digital gauges.

Kit with two Digital  
Gauges (NIST)

#### Pressure Drop Test Kit contents

- Four test units fitted with Analogue Pressure Gauges
- Up to two optional interchangeable Digital Pressure Gauges
- Peli Storm Box with Lifetime Guarantee.

#### Analogue Pressure Gauges

- 0 – 20 Bar
- 60mm diameter dial face.

#### Digital Gauges

- 0.1% Accuracy
- 1000+ hours continuous use
- -1 – 30 Bar Range.

#### Recalibration References

Standard Pressure Drop Test Kit (NIST):	RECALPDK (NIST)
Kit with +1 Digital Gauge:	RECALPDK1 (NIST)
Kit with +2 Digital Gauges:	RECALPDK2 (NIST)

#### Specification

Weight:	4Kg
Height:	27cm
Depth:	19cm
Width:	37cm

#### Standard Pressure Drop Kits

Description	Part Number
Pressure Drop Test Kit with NIST Connections	2010

#### Digital Pressure Drop Kits

Pressure Drop Test Kit (x1 Digital Gauge) NIST	2011
Pressure Drop Test Kit (x2 Digital Gauges) NIST	2012

Supplied by
